## 1-day AECOsim Building Designer Training

### Let's build success with AECOsim Building Designer!

Come join our 1-day training to learn how upgrading or cross grading to AECOsim Building Designer will help you achieve Building Success in executing BIM Projects.

AECOsim Building Designer is single information modelling software application for multi-discipline building teams that provides a comprehensive set of tools for architects, structural, mechanical and electrical engineers in order to effectively design, construct, document and visualise buildings of any size and complexity.
