## INTRODUCTION

### WHAT IS PERFORMANCE-BASED CONTRACTING (PBC)?

### WHAT IS THE PRESENT STATUS OF PBC IMPLEMENTATION IN MALAYSIA?

Simply defined, PBC enables a Client (Government or Private Sector entity) to acquire Asset and Facility Management services via contracts that define WHAT is to be achieved, not necessarily HOW it will be done. This can result in tremendous benefits to the Client, providing him with the best value-for-money products and services while allowing the freedom to the Contractors to propose new approaches and innovations. To learn more about PBC and the present status of its adoption in Malaysia, it is our great pleasure to invite you to attend and participate in this important Seminar.

## OBJECTIVE OF SEMINAR

To Enhance Understanding of Performance-based Contracting in the Malaysian Asset and Facility Management Industry
