

2018

1 - 2 August

Seminar on Cement and Concrete Applications - Road

JKR CREaTE, Melaka

20 CCD
POINTS &
8 CPD
POINTS

INTRODUCTION

Concrete roads had been on the agenda of the Ministry of Works (MOW) for a long time, culminating in the announcement of 5% of the length of new Federal Roads to be built in concrete under the 10th Malaysia Plan (MP) and continued into the 11th MP. Despite the announcement, very little progress was made, due mainly to the high initial costs of conventional concrete roads; lack of equipment; and most importantly the difficulty to change the mindset of the public on concrete roads.

For MOW to achieve the target and overcome the challenges, C&CA, JKR, CREaTE, and CIDB, are jointly organising a 2 day seminar to create greater public awareness of concrete pavements especially on the benefits to the nation, in terms of savings from the little or low maintenance costs for 20 to 50 years, depending on the type of concrete pavement constructed. The Ministry recognises the need for efficient and high quality roads, that would reduce maintenance costs. To mitigate high initial and maintenance costs, there is a need to look at alternatives solutions, and the usage of locally available materials and equipment to construct concrete roads.

The 2 day Seminar will have presentations from experts in the field, to share their views and experiences on cement and concrete applications, focusing on roads. The Seminar would highlight sustainability, durability, and minimal maintenance cost of concrete pavements, to encourage the construction of more concrete roads in Malaysia to meet the challenges faced by the Government.

OBJECTIVES

1. To address the Challenges of implementing the policy for 5% of the length of new Federal Roads to be built in concrete or in other new technologies under the 11th Malaysia Plan.
2. To emphasize the importance of Alternative Solutions for the construction of concrete pavements.
3. To create a Platform for cement and concrete experts to interact, exchange views and ideas, and provide solutions.
4. To establish Networking for cement and concrete practitioners.

SEMINAR DETAILS

Date : 1-2 August 2018

Venue : **CREaTE Hall**

JKR Centre of Excellence for Technology and Engineering (CREaTE)

Jalan Kemus, Simpang Ampat, 78000 Alor Gajah, Melaka

SEMINAR FEES

- Participant : RM500
- Early registration is encouraged. Registration fees are non-refundable, however, replacements are allowed

EXHIBITION BOOTH

- Booth : RM 3000 per booth, size 3m x 3m (for 2 days)
- FOC 2 persons per booth to attend the Seminar

WHO SHOULD ATTEND

- Policy Makers
- Public and Private Sector Engineers
- Consultants
- Concessionaires
- Contractors
- Academicians / Post Graduates
- Public and Private organizations

TENTATIVE PROGRAMME

Day 1 : 1st August 2018 (Wednesday)

8.30am - 9.30am	Registration / Morning Coffee
9.30am - 9.35am	Welcoming Address by CREaTE
9.35am - 9.40am	Opening Address by C&CA
9.40am - 10.00am	Keynote Address / Seminar Opening by the Ministry of Works
10.00am - 11.00am	Refreshment / Visit Exhibition
11.00am - 12.30pm	Paper 1 <ul style="list-style-type: none"> • Overview of Malaysian Roads : Definitions, Types, Specifications, Policies by Ir Abdul Mutalif Abdul Hameed of CREaTE
12.30pm - 2.00pm	Lunch Break / Visit Exhibition / Networking
2.00pm - 3.00pm	Paper 2 <ul style="list-style-type: none"> • Experiences on Construction of Concrete Pavements by Dato' Che Noor Azeman of JKR Road Division
3.00pm - 4.00pm	Paper 3 <ul style="list-style-type: none"> • Mindset, Perceptions and Challenges towards Concrete Roads by Mr Zack Lim of Zack Lim Floor Specialist Sdn Bhd
4.00pm - 5.00pm	Refreshment / Visit Exhibition

Day 2 : 2nd August 2018 (Thursday)

9.00am - 9.30am	Morning Coffee
9.30am - 10.30am	Paper 4 <ul style="list-style-type: none"> • Cement Technologies on Road Construction by Mr Vigneswaran Velautham of Lafarge Malaysia Berhad
10.30am - 11.00am	Refreshment / Visit Exhibition
11.00am - 12.00pm	Paper 5 <ul style="list-style-type: none"> • Cement in Soil Stabilization and Cold in-Place Recycling CIPR (Road Base) by Ir Wan Zainuddin Wan Omar of Selia Selenggara Selatan Sdn Bhd
12.00pm - 1.00pm	Paper 6 <ul style="list-style-type: none"> • Rural Road Application and Major Road Construction using Cement i.e. CRCP, JPCP, RCC by Mr Sahruzi Sahari of Lafarge Malaysia Berhad
1.00pm - 2.30pm	Lunch Break / Visit Exhibition / Networking
2.30pm - 3.30pm	Paper 7 <ul style="list-style-type: none"> • Life Cycle Cost Analysis and Maintenance of Concrete Roads
3.30pm - 4.30pm	Panel Discussion: Are Cement and Concrete the Right Choice for Pavements?
4.30pm - 4.45pm	Closing and Presentation of Tokens of Appreciation
4.45pm - 5.30pm	Refreshment / Visit Exhibition
5.30pm	End of seminar
