## ROYAL INSTITUTION OF SURVEYORS MALAYSIA PROPERTY SURVEYING DIVISION

TECHNICAL VISIT TO KUANTAN PORT CONSORTIUM SDN. BHD. (KPC)

19<sup>th</sup> March 2020 (Thursday)

Kuantan Port Consortium Sdn. Bhd. (KPC), is jointly owned by IJM Corporation Berhad, a public listed company on Bursa Malaysia and Beibu Gulf Holding (Hong Kong) Co. Ltd. on a 60:40 equity holdings with the Government of Malaysia having a special rights share. KPC is given the concession period of thirty (30) years since 1998 to manage, operate and develop Kuantan Port through a Privatisation Agreement. Kuantan Port, an all-weather port operating all year round is a multi-cargo deep seaport facing the South China Sea. Strategically located on the eastern seaboard of Peninsular Malaysia and in the heartland of petrochemical industries, Kuantan Port has developed into a major container terminal for the east coast region. Supported with excellent port facilities and services, a vast market outreach and a strong network of global shipping connections, Kuantan Port will be a catalyst for the rapid expansion of the industrial and manufacturing activities in the East Coast Industrial Corridor. Upon completion of the NDWT, Kuantan Port is envisaged to be the main gateway to China and the Far East and shall act as a transshipment hub for minor ports in the region.

### Objective of The Technical Trip

The objective of the technical trip to Kuantan Port is to provide participants with firsthand knowledge and insights on how an international port is operated. In addition, participants will be given opportunities to discover the development process of the NDWT, its challenges and how the port has been an economic catalyst to the East Coast Industrial Corridor by being the gateway to China and the Far East.
