

Webinar

PEST CONTROL IN BUILT ENVIRONMENT

The main objective for the webinar is to share the knowledge and the importance of selecting the right termite pesticide to provide excellent protection towards buildings in Malaysia. The session will help to bridge and connect between two different industries but actually have a very close relation.

TOPIC 1: KNOW YOUR TERMITE SPECIES: ESSENTIAL INSIGHTS FOR EFFECTIVE BUILDING TREATMENT

SPEAKER'S PROFILE

Assoc. Professor Ts. Dr. Abdul Hafiz Ab Majid is an esteemed academician and researcher at Universiti Sains Malaysia, specializing in Urban, Structural, and Molecular Entomology. He holds a B.Sc. in Biology & Management of Vectors and Parasites, a

- Master's in Urban & Industrial Entomology, and a PhD in Urban and Molecular Entomology from the University of Nebraska-Lincoln, USA.

- Currently, he serves as the President of the Entomological Society of Malaysia and is an Honorary Member of the Malaysian Pest Management Association (MPMA). A Board Certified Entomologist (BCE) in Urban and Industrial Entomology, he has been registered with the Entomology Society of America (ESA) since 2009. Additionally, he is a Professional Technologist in Biotechnology under the Malaysia Board of Technologists.

His research primarily focuses on urban insect pest management, including termites, bed bugs, ants, cockroaches, and stored product pests, as well as the application of molecular genetic tools to investigate breeding patterns and population genetic structures of insect pests.
